# Client Evidence Packet

Casa Brisa Kitchen Inc.

C002 | ACC-C002-01 | ALR-39CA1056B369

## Synthetic Supporting Documents

Prepared for the AML proof of concept using the current local case records. Transaction and profile extracts reproduce the supplied synthetic dataset. Any sample customer explanation is fictional, unsigned and unverified; it is not a statement received from the customer.

| Required Evidence | Packet Section |
|---|---|
| Depositor identity | 2 |
| Business-location records | 2 |
| Customer explanation | 5 |
| Relationship between depositors and account owner | 2 |
| Same-account deposit-to-outflow timeline | 4 |
| Deposit-to-outflow timeline | 4 |
| Beneficiary relationship | 5 |
| Business purpose | 5 |

## How to Use

Upload this text-searchable PDF in the customer Documents tab and select the matching evidence types. Document receipt does not establish authenticity or resolve the alert. Unknown facts and verification gaps are expressly retained.

Source: local application case API, /alerts/ALR-39CA1056B369/case. Underlying records: customer profile, triggering transactions, rule results and beneficiary reference data. This packet covers the flagged transactions only, not a complete account statement.

# Depositor and Business-Location Records

## Depositor identity / Relationship between depositors and account owner

Every listed deposit carries a non-customer indicator. The source provides reference IDs only; legal names, identity documents and relationships to the owner are not supplied. These gaps remain unresolved.

# Deposit-to-Outflow Timeline

C002 | ACC-C002-01 | ALR-39CA1056B369

## Same-account deposit-to-outflow timeline

Flagged deposits: $48,088.46. Allocated outflows: $47,395.29 (98.56%).

Method: FIFO within 72h; capped by each deposit; heuristic, not proof of funds provenance. Allocated amounts are portions of transactions, not necessarily their full amounts. Timing and FIFO allocation do not prove which funds funded a payment.

| Deposit | Outflow | Allocated USD | Elapsed Hours |

The same timeline supports both required timeline categories. It shows analytical allocation within one account; it does not establish cross-account consolidation.

# Customer Explanation and Payment Purpose

C002 | ACC-C002-01 | ALR-39CA1056B369

## Customer explanation

FICTIONAL SAMPLE CUSTOMER EXPLANATION - UNSIGNED

For demonstration purposes, assume the customer states that out-of-state deposits relate to temporary catering collections made by third parties, followed by payments to food and beverage suppliers. This narrative is invented for testing and conflicts with the documented single-location California operating profile until supported by records.

## Beneficiary relationship / Business purpose

| Beneficiary | Recorded Relationship and Activity |
|---|---|
| Delta Fresh Produce Co. | Supplier; produce distribution. Expected payment methods: ACH, CHECK. |
| Capitol City Meat and Seafood | Supplier; meat and seafood supply. Expected payment methods: ACH, CHECK. |
| Sierra Beverage Distributing | Supplier; beverage distribution. Expected payment methods: ACH, CHECK. |

The reference data identifies these businesses as suppliers. Wire payment purpose fields say "Supplier payment" where populated. This does not substantiate the underlying purchase, and actual wire payments differ from the recorded ACH/check expectations.

## Verification Still Required

Obtain depositor names and identity evidence; authority and relationships to the customer; catering contracts and event-location records; a customer-authored explanation; supplier invoices and delivery records; and reconciliation of cash receipts to deposits and payments. Reference IDs and a sample narrative do not replace these documents.

No customer signature, identity certificate, invoice or location permit is fabricated in this packet.
